OUR COMPANY

Prestolite is a rapidly expanding global company with manufacturing and distribution in North and South America, Europe and Asia. Having research and development facilities in each of these locations, the company combines the engineering know-how and manufacturing expertise of Lucas CAV, Leece-Neville, Butec and Motorola, to produce the best starters and alternators range in the market.

OUR BRANDS

Effective from mid 2007 you would have seen that all of our products are dual branded 'Prestolite' and 'Leece-Neville'. We think it's important that our customers are able to make the link between these two great brands and it's a reminder that all 'Leece-Neville' products are available from Prestolite – and vice versa!

OUR PRODUCTS

We offer a complete range of Heavy, Medium and Light Duty starters and alternators covering all major European Truck, Car and Van applications as well as comprehensive Bus & Coach, Off-Highway, Agricultural, Marine and Industrial application coverage.

Look out for our new Refrigeration Equipment and Marine catalogues coming soon!

OUR UNIQUE OFFER

Remember that the vast majority of a range comes to you BRAND NEW. Of course this offers you OE quality levels, no availability problems due to core shortages but also the advantage of NO CORE SURCHARGES! How many times have you sold an alternator or starter only to have your profit wiped out because your supplier won't accept your core? With Prestolite you can simply sell and forget.
