## ABOUT UNIPPOINT

Unipoint Electric Mfg Co., Ltd was established in 1972 and has become one of the world's largest manufacturers of starters and alternators, temperature control units and wiper blades. Unipoint's manufacturing plants are in Asia, with distribution efforts supported by sales personnel and warehouse facilities in North America, Europe and South America. Our manufacturing facilities practice state of the art process control and all are certified to ISO 9001 / TS16949 international quality standards. Our local offices are designed to provide exceptional customer support, competitive pricing and marketing assistance to our OEM/OES and aftermarket customers. Unipoint's engineering group has the experience and capability to develop new applications on a timely basis. And on average develop over 300 new products per year.

Supplier to these  
OE companies:

ISUZU

VDO

VERSATILE

Products :

# Quality is Our Commitment!

Unique Quality, Unique Value

## Temperature Control

### Comprehensive Product Range

Unipoint temperature control line includes brushless D.C. motors, blower & fan motors, radiator fan assemblies, fan clutches and other related products. Every application is designed to meet and exceed O.E.M. specifications. Temperature control products undergo the same stringent quality manufacturing and testing processes associated with all Unipoint products. In addition, our line is very broad and offers over 800 different models.

### Superior Quality and Technology

All Unipoint temperature control products are made 100% brand new. This eliminates the investment & costs associated with the handling of core. All our brand new products undergo the following rigorous testing to ensure a trouble free operation & long service life:

- Vibration test
- Noise test
- Salt spray test
- Endurance test
- Surface temperature measure
- Volumetric Efficiency
- Power measurement
- Life time test
- Application simulation
- Water RoHs Cr6+ tester

### Long Term Partner

Unipoint has the experience, expertise & flexibility to develop & tool new products on a timely basis.
