HC-CARGO A/C catalogue contains a wide range of complete compressor units and components like dryers, condensers, evaporators and expansion valves for air conditioning systems, mainly for passenger cars. All units are sold outright. The catalogue is divided into two sections: AC components and Universal Parts. The catalogue contains application lists and pictures of each HC-CARGO part number.

”Becoming an HC-CARGO supplier is not that easy. They have to fulfil a long list of preconditions and need to be DIN EN ISO 9001 certified. Last but not least they have to convince me. Together with the quality department I visit our suppliers and test them intensively before they deliver the first products.”
